Perfect Gift For the Angler!

The STREAM & LAKE MAP OF NEW ENGLAND resembles another map--known to Pennsylvania anglers as the "Lost Stream Map."

It was completed in 1965 after a 30 year effort by Howard Higbee, a former Penn State Professor.

Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered $400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map.

Then the STREAM & LAKE MAP OF NEW ENGLAND was created.
