How to Protect Your Car from Car Theft

By B.L. -- A long-term resident of North Haven, CT with 58 years of community experience

One of the most effective safety devices at your disposal is your "Key Alarm." If you find yourself in a parking lot and witness someone attempting to break into your vehicle, it's crucial to prioritize your safety: call 911 immediately, activate your Key Alarm, and continue walking to a safe location while remaining on the line with authorities.

Similarly, if you notice someone tampering with or trying to steal your car in your driveway, do not confront the individual. Instead, activate your Key Alarm and contact 911 right away.

In addition to personal safety devices, consider investing in modern security solutions such as doorbell cameras and floodlights equipped with security cameras and sirens. These systems can provide valuable protection for your property.

For me, the Key Alarm is my go-to safety measure -- it's always within reach and comes at no additional cost. Prioritizing personal safety and property protection is essential in today's environment.
