Proud to Support Dave Yaccarino, A Dedicated Public Servant

To The Editor: October 1, 2024

As I have in past years, I am delighted and privileged to lend my voice in support of Dave Yaccarino for re-election in November to the State Legislature. Dave has been the most dedicated public servant, placing the constituents he represents at the top of his list of importance. He is a man of honor, integrity and character.

What I admire and respect is the fact that Dave does not rush to quick judgement regarding an issue up for a vote. He gives it thoughtful consideration and researches it at length to make a proper decision which will benefit the people he represents. His voting record stands for itself. Make the RIGHT choice; vote for Dave.

Supporting State Rep Dave Yaccarino For Seventh Term

To The Editor: October 1, 2024

I write today to express my wholehearted support to re-elect Dave Yaccarino for a seventh term as North Haven's State Representative.

The State is at a critical juncture as we face an affordability crisis. Dave has continually fought to make Connecticut more affordable, advocating for common sense legislation aimed at reducing costs and state finances.

Several years ago, I recall a conversation with Dave where he told me about his vision to create a biotech corridor in Connecticut. Since that time, he has worked hard to make his vision a reality, serving as co-chair of the Bipartisan Bioscience Caucus where he has been a leader in driving policy, which in turn has made Connecticut a leader in the biotech industry. This will continue to bring businesses who will invest in the State and provide residents with steady, reliable high earning employment.

In a time where politics have become a contest of who can be louder or more obnoxious than their peer; Dave is an outlier. He stands as a leader who seeks to work with everyone, respectfully listen to all points of view and staunchly advocate for his beliefs. Hartford should take note. Dave's principals, beliefs, and political tactics have brought resounding success for all of North Haven.

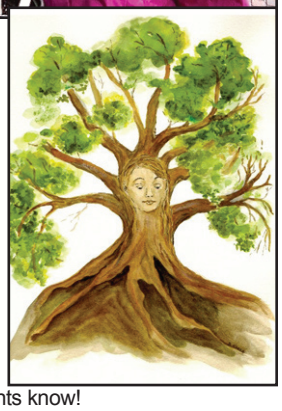
What Do Plants Know? Are Plants Intelligent?



Pictured: Peter and Barbara Rzasa will explain the intelligence of plants, and intelligent tree painted by Barbara.

North Haven: Although we may take them for granted, plants are actually very unique and far more complicated than most people realize. In fact, plants share many of the same senses that humans possess. Naturalists and photographers Barbara and Peter Rzasa will lead a program that provides insight on how plants have developed the ability to see, smell, hear, feel, remember, communicate, tell time, and know where they are. How do plants do this? Do they have a "brain" as some researchers advocate? Attend this fascinating program to discover what plants know!

Sponsored by the Daytime Gardeners of North Haven, this meeting will be held Tuesday, Oct. 22, 2024 at the North Haven Recreation Center, 7 Linsley Street from 11:00 AM to noon.

Guests are welcome to attend. A $5.00 guest donation is appreciated. Please call Daytime Gardeners at 203-239-1557 to register for the meeting.

New members are always welcome. For information on our activities and membership, email proto.mary@yahoo.com, and be sure to visit us on Facebook at Daytime Gardeners of North Haven.
